Learning gives creativity, creativity leads to thinking, thinking provides knowledge, knowledge makes you great-Dr. APJ Abdul Kalam

In the mentioning period we could able to reach the unmet, unloved, uncared and unwanted communities through various programs with the support of government and from self-generated Local Communities contributions through fees. Since we keep the community in designing of an intervention through proposal preparation, implementation, monitoring and evaluation we could able to achieve the desires and demands of the disadvantaged more comprehensively. In the mentioning year we considered huge need of climate change effect on the disadvantaged communities in their poverty eradication programs and livelihood sustainability. Considering this we have organized ourselves in energy and environment conservation, climate change mitigation practices and combat against exploitations. In harnessing the rich inherited knowledge and experience of poor we have planned to accommodate the most vulnerable and deprived communities in capacity building, cadre building and socio-economic and political empowerment.

TRUST in its journey through the development of disadvantaged sections continues with the support and coordination of humane people like you and local grant agencies.

I am extremely indebted to present this annual report to the communities, supporters for the year 2015 – 2016. Because of communities participation our interventions have explored new corners. Our sincere and honest pledge to all of you and request the continuation of supports in the coming years as well. Together we would reach new heights and make productive changes in the lives of the deserved.

Global Youth Service Day

Youth Volunteers celebrates the global youth service day programme. Our NGO is India Country partner of Global youth Service Day programme for the year of 2013. The service activities do at 50 villages and also collaboration with 15 local NGOs. representatives training on self help groups management, record keeping, leadership, communication, health, sanitation, environment etc. participated in this campaign, more than 100 women actively participated. The programme was ended with vote of thanks given by Mrs. M. Devi.

This report explains our achievement and activities to some extent. At this juncture, I express my sincere thanking to all our well wishers and supporters. I also extend my heartfelt thanking to our staff members who have foot their selfless services without their active it was not possible to obtain results. I hope this report will facilitate in sharing of our experience and learnt who are providing care and support services to the downtrodden community.

I call upon our long standing supporters to further strengthen REACHER so that we can keep the organization relevant and live to the development needs of communities across Usilampatti. The innovative work by REACHER on poverty targeting approach along with building capacities of functionaries to actually make an impact on quality of life of the poorest, needs to be supported further so that it reaches a size where it influences stakeholders to focus on the needy segments. Institutional reforms have given a strong impetus to economic growth but it has also led to new challenges of inclusion and servicing communities left behind

livelihoods provides the nucleus around which we build up more effective and efficient interventions for the empowerment of excluded communities.
